

M1 GARAND

TIME AND ACCURACY MATCH

**June 4, 2005,
Immediately After Our Practice Match**

This match is designed for the M1 Garand but members with other rifles including those with optical sights are welcome to participate. Competitors who wish to use two round and five round clips and do not have them may borrow them from the Zouaves.

In today's match each competitor will take a total of **9** shots at different colored targets set at various distances and shot from three different positions.

1. **Sitting or kneeling.** Competitors begin standing at **position 9**. At the command: **TIME!** the competitor takes either a sitting or kneeling position, loads **two** rounds and takes one shot each at the two **black targets**. After the second shot the competitor immediately moves to position 12.
2. **Prone.** At **position 12** the competitor takes a **prone** position, loads **five** rounds, takes one shot each at the **three white targets** immediately followed by one shot each at the **two red gongs**. After the fifth shot the competitor immediately moves to position 15.
3. **Standing.** At **position 15** the competitor remains **standing**, loads **two** rounds and takes one shot each at the **yellow target** and the **orange gong** to the right of position 16.

Time begins at the initial signal and ends with the ninth shot.

The score is the time to take the nine shots plus one minute for each missed target. A shot on a wrong target is scored as a miss.

Garand scores will be listed separately from those of other rifles.

Shoot the match as often as you want!
