Rifle classes: SA=semi auto; B=bolt; M1=Garand; I=iron sights; O=optical sights

\*A clean hit on the obscured target: minus one minute. Clean miss: plus one minute. Hit on obscuring target: plus two minutes.

Congratulations to today's competitors. No one hit the obscuring target. Also, all those using bolt guns with iron sights were using "relic" rifles and ball ammo. Impressive!

Reminder: Prone match Saturday, April 30. Three 15 shot strings, slow fire on the 600 yard target. Whatever rifle you bring there is a class for you to compete in. See the announcement on [www.zouaves.org](http://www.zouaves.org). Call or e-mail me if you have any questions.
